VALUE ADDED SOLUTIONS IN
AGITATION • HEAT TRANSFER • CORROSION RESISTANT EQUIPMENT

Trusted Solutions for Every Challenge

For over 40 years **Chemetec** has proudly provided the highest quality **engineered equipment** and **service** to make your processes more efficient and more reliable year after year.

Excellence in design requires experience and expertise, and our Manufacturers are second to none! We will continue to provide you with **value added solutions** in **agitation, pumping, heat transfer, and corrosion resistant technologies.**

▶ Rotating Equipment Maintenance & Repair Services

CHEMETEC is the **Factory Authorized Service Center for Chemineer Agitators, Liquiflo, Moyno, Dickow, and Labour Pumps.** Our skilled millwrights work on any rotating equipment prolonging equipment lifecycles. We offer inspection and failure analysis along with our repair services. With our facility in **New Orleans, LA** you are just one call from **TOTAL CUSTOMER SATISFACTION.** In addition to our in-house service and repairs in our New Orleans, LA service center, we also work directly with our channel partners to provide OEM service and repair for Tranter plate & frame heat exchangers, Gulf Coast Graphite heat exchangers, Zenith precision metering pumps, and Diamond Fiberglass tanks & fiberglass piping.

▶ EPC Firms, Plant Manager/Engineers & Procurement Teams

CHEMETEC ENGINEERED EQUIPMENT built its business based on fundamental principles. First and foremost, **we are a technically based organization providing VALUE ADDED SOLUTIONS to our Customers.** We provide your team with **full Application & Design** data at **no cost to you or your customer.** Consider **CHEMETEC** a resource that allows you to leverage your internal resources and grow your business or improve your processes without new hirings or additional costs.

Over 40 years of innovative solutions in **AGITATION, PUMPING, HEAT TRANSFER, and CORROSION RESISTANT EQUIPMENT.**

ART AT WORK

Over 40 years of innovative solutions in
**AGITATION, PUMPING, HEAT TRANSFER, and
CORROSION RESISTANT EQUIPMENT**

Excellence starts with design that requires the vision of great minds. Leonardo Da Vinci's designed machinery and other inventions centuries before Gutenberg had the technology to build them. Chemetec's manufacturers continuously create with vision, design with purpose, and create the cutting edge of the art equipment in each of its operations in metalworking.

▼ CORROSION RESISTANT PRODUCTS ▼

CGThermal

Full service, graphite and ceramic heat exchanger manufacturer with stringent material and design standards and over 175 years of combined application history. Products ideally suited for your most corrosive heat transfer environments.

Diamond Fiberglass manufactures custom engineered Fiberglass Reinforced Plastic vessels. Founded in 1986 on a commitment to quality assurance, excellent customer service, and unmatched industry expertise. Diamond continues to build on that tradition today and maximize value for its customers. Additionally, our certified fiberglass professionals are available to assist your organization with on-site field services. Let our team provide peace of mind that your vessels are functioning the way they were designed.

EDLON

Polymer and Fluoropolymer-bonded liners, coatings and thick, loose liners for vessels, columns, dip pipes, and fittings. Used in processing, transporting, and storing of corrosive chemicals.

Edlon.com

LA TX

Based in Port Allen, LA; Gulf Coast Graphite Services, LLC is a full service graphite process equipment repair and rebuild facility serving the entire Gulf Coast. Complete rebuild services, replacement parts, OEM replacements and field service support for all makes of graphite exchangers and process equipment.

LA MS

3V Tech combines process and engineering know-how with advanced process solutions and equipment. The production of glass lined process equipment is Glasscoat's speciality as it is part of 3V Tech and relies on the more than 40 years of experience in producing process equipment for the Chemical Synthesis and the Pharmaceutical industries.

Grundfos and its legacy brands develop water solutions for the world. They set the standard in terms of innovation, efficiency, reliability, and sustainability. Grundfos can provide solutions ranging from digital dosing systems for accurate metering of chemicals to turn-key engineered systems for large capacity water movement. Grundfos has an extensive product portfolio to fit a wide variety of needs within the Industrial market including: CR/CRE pumps are multi-stage pressure boosting pumps in a variety of construction materials. Grundfos iSolutions can be utilized to provide entire system solutions resulting in reductions in energy and water consumption.
